

## HOMEOWNER ORIENTATION

### ***Welcome to Pinnacle Granite Solutions***

- We are glad you are here to personally select your new granite slabs for your home. We are here to assist you with this very important decision.
- As you will see, we have a great variety of stones to choose from. While stone slabs vary in price, your particular project will also vary in cost based on the layout and the total square footage as well as your edge treatment and sink installations. Pricing will be quoted by your chosen fabricator or builder.
- We are providing you with a list of our materials, broken into categories, based on a typical price range for a typical project. We find that some fabricators have many different price levels and others have only a few.
- If you are building a new home or remodeling an existing home, your contractor should be able to provide you with the name of your fabricator. We will be happy to contact your fabricator during your visit to assist you with costing our materials.
- You may reserve your slab selection. If you or your builder have not yet selected a fabricator we will reserve your selection for **15 days**. Once you have contracted with a fabricator and provide us with that contact, your slabs can be reserved for **30 days**.
- If you desire to reserve your slabs beyond 30 days, please let your fabricator know and make arrangements through them. Your fabricator will contact us to extend your reservation.

***PLEASE USE CAUTION and be aware that these slabs are extremely heavy and potentially dangerous. Please keep your children at your side at all times. Please be aware of moving machinery, cranes, forklifts etc. and stay in the main aisles of the warehouse.***
